

Dr. Jerry Schwartz' (hotel owner) solar farm in Hunter Valley

OUR COMMITMENT TO **SUSTAINABILITY**

At Sofitel Sydney Darling Harbour, we are committed to reducing our environmental impact. We believe that delivering thoughtful luxury while keeping the planet in mind is integral to providing exceptional hospitality experiences.

Sofitel Sydney Darling Harbour announced receiving full accreditation with **Green Globe™** - the world's leading certification for sustainable operation and management of travel and tourism worldwide. This accreditation sees the Darling Harbour icon as the first Sofitel hotel in the Pacific region to achieve this level of sustainability excellence.

ROOMS

- No single-use plastics achieved in 2022
- Water saving appliances, fittings and initiatives
- Sensor-based systems to manage air-conditioning usage
- Motion-controlled electricity used in parts of the hotel
- Energy efficient lighting used
- Energy used from carbon-free sources
- All windows are double-glazed
- Sustainable bamboo accommodation keys used
- Soap and toiletry donation through *Soap Aid*

FOOD

- Sustainably sourced suppliers
- Locally sourced suppliers
- Provides a diverse menu with vegetarian options
- Pulpmaster used as a highly sustainable food waste disposal service

- Active Green Committee and Green Champion within departments
- Responsible purchasing policy to prioritise sustainable suppliers
- Discrimination, diversity and inclusion policy
- Commitment against forced labour
- Commitment to take part in the international effort to abolish child labour
- Offers Meeting Planner's *Net-Zero Carbon Calculator*
- Safe disposal of electronics, batteries and lightbulbs

DISCOVER NET-ZERO CARBON HOSPITALITY

Each year Accor hosts guests who seek hospitality to live, work and play. As an industry leader, Accor is prioritising the reduction of its environmental footprint to preserve our planet and its resources for future generations.

Introducing the Net Zero Carbon Calculator

Accor has worked together with myclimate, a Swiss non-profit organization and global leader in carbon accounting and climate protection, to introduce the Net Zero Carbon Calculator, giving you visibility of room nights and events footprints.

Three vertical, rounded rectangular cards are arranged horizontally. Each card has a different background and icon. The first card is purple with a bed icon and the title 'Room Night Footprint'. The second card is dark with a palm tree and people icon and the title 'Event Footprint'. The third card is blue with a cloud and CO2 icon and the title 'Direct Purchase of Carbon Credits'. Each card contains a brief description and a 'Calculate' button at the bottom.

Room Night Footprint
Calculate the footprint of one or more room nights using Accor hotel data.
[Calculate](#)

Event Footprint
Calculate the footprint of an event at an Accor hotel of one or more days. Choose to add the specifics for your event or use our hotel-specific estimates.
[Calculate](#)

Direct Purchase of Carbon Credits
Balance the emissions of any activity by entering the known or estimated emissions and selecting a carbon credit portfolio to support.
[Calculate](#)

1. Visit accor.myclimate.org and select a calculator

Calculate the carbon footprint of one or more room nights, a meeting or event, or simply balance emissions of any activity by entering the known or estimated emissions

2. Calculate your carbon emissions

Complete the form by adding the total number of room nights and the hotel or all the elements of your event.

3. Offset carbon emissions by selecting a global project to support

Select from a portfolio of international climate protection projects managed by myclimate. Portfolios are made up of high-quality carbon credits that support global sustainable development actions.

4. Pay via the website or request an invoice

5. Receive your certificate
